4. Reserved

On-board reserved the Leds and light dependent resistors. They can help the camera switch day and night working mode automatically based on light condition. But it need to change the other lens. So if you want the all days (day and night) camera version, please contact us.

5. Case

We designed a aluminum alloy case for the camera module. You could find it on our Amazon shop. If you can't catch it, feel free to let me know.
